Summary

Countries at the Crossroads, published from 2004 to 2012, was an annual analysis of government performance in 70 countries that were at a critical crossroads in determining their political futures. The in-depth comparative assessments and quantitative ratings examined government accountability, civil liberties, rule of law, and anticorruption and transparency efforts. These were intended to help international policymakers identify areas of progress, as well as to highlight areas of concern that could be addressed through diplomatic efforts and reform assistance.

Countries at the Crossroads

Countries at the Crossroads, published from 2004 to 2012, was an annual analysis of government performance in 70 strategically important countries that were at a critical crossroads in determining their political futures. The in-depth comparative assessments and quantitative ratings—examining government accountability, civil liberties, rule of law, and anticorruption and transparency efforts—were intended to help international policymakers identify areas of progress, as well as to highlight areas of concern that could be addressed through diplomatic efforts and reform assistance.
