

Gender Statistics, World Bank

The printable version is no longer supported and may have rendering errors. Please update your browser bookmarks and please use the default browser print function instead.

Summary

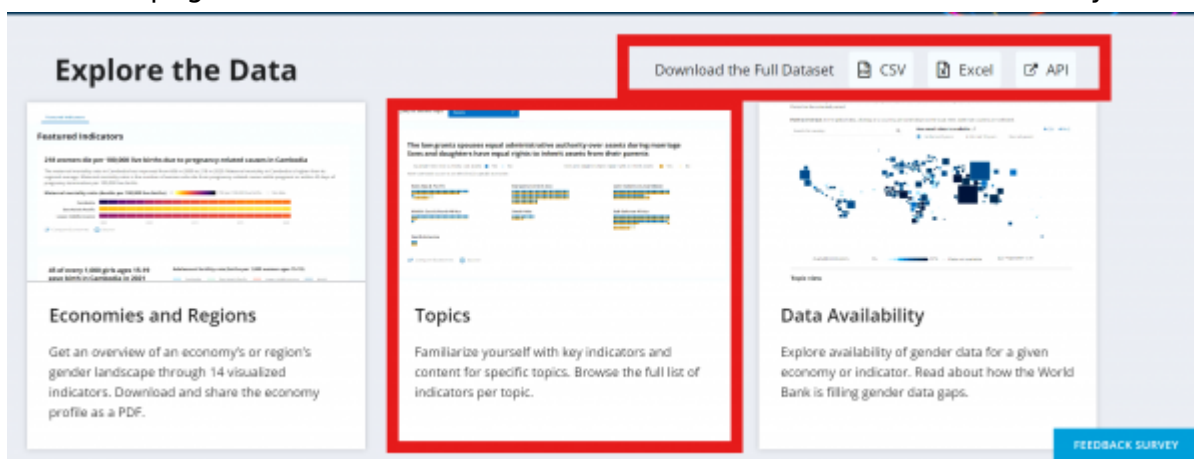

The World Bank's Gender Data Portal makes the latest gender statistics accessible through compelling narratives and data visualizations to improve the understanding of gender data and facilitate analyses that inform policy choices.

We use this data for:

- LaborInformal%TotalFemaleWB
- LaborInformal%TotalMaleWB
- AvgAgeAtFirstMarriageMen-WB
- AvgAgeAtFirstMarriageWomen-WB
- GenderUnpaidDomesticWorkTimeFemale
- GenderUnpaidDomesticWorkTimeMale

Pulling Data

1. You can either search up the indicator in the topics or search through them here in the all indicators page or download the entire dataset and filter it out for the data you need.

2. Using the example informal employment, I can search up the indicator and click on it to take me to another page to download the data.

The screenshot shows a sidebar on the left with categories like Population, SDGs, Children 0-14, Youth 15-24, Assets, Education, Employment and Time Use, Entrepreneurship, Environment, Health, Leadership, and Norms and Decision-making. The main content area lists various indicators, with 'Informal employment (% of total non-agricultural employment)' highlighted in a red box. Other indicators include 'Employment by sector (%)', 'Labor force (number)', 'Unemployment (%)', and 'Wage and salaried workers (% of employment)'.

Informal employment (% of total non-agricultural employment)

Please see details tab for indicator definitions, original source, and methodology
