## Summary

The International Development Association (IDA) is the part of the World Bank that helps the world's low-income countries. IDA's grants and low-interest loans help countries invest in their futures, improve lives, and create safer, more prosperous communities around the world. The IDI also provides data on economic and sector management, policies, and more.

The World Bank's IDA Resource Allocation Index (IRAI) is based on the results of the annual Country Policy and Institutional Assessments (CPIA) exercise that covers the IDA eligible countries.

5 tables contain IDA data in IFs.
