

MediaWiki:Apierror-cannot-async-upload-file

The printable version is no longer supported and may have rendering errors. Please update your browser bookmarks and please use the default browser print function instead.

The parameters *async* and *file* cannot be combined. If you want asynchronous processing of your uploaded file, first upload it to stash (using the *stash* parameter) and then publish the stashed file asynchronously (using *filekey* and *async*).
