

# MediaWiki:Apihelp-query+allmessages-param-includelocal

---

The printable version is no longer supported and may have rendering errors. Please update your browser bookmarks and please use the default browser print function instead.

Also include local messages, i.e. messages that don't exist in the software but do exist as in the MediaWiki namespace. This lists all MediaWiki-namespace pages, so it will also list those that aren't really messages such as Common.js.
