

# Tobacco Free Initiative

---

The printable version is no longer supported and may have rendering errors. Please update your browser bookmarks and please use the default browser print function instead.

## Summary

---

The Tobacco Free Initiative (TFI) in the Western Pacific Region supports strengthening tobacco control and monitoring tobacco use and control in countries and areas. With an estimated 377.2 million adult smokers in the Region, or about one-third of the world's smokers, TFI aims to achieve the lowest possible level of tobacco use prevalence and the highest level of protection from second-hand smoke.

The Data Team uses the Household Energy Database for these series:

- **SeriesHealthSmokingPrevalenceWHOFemales%**
- **SeriesHealthSmokingPrevalenceWHOMales%**
- **SeriesHealthSmokingPrevalenceWHOFemales%New**
- **SeriesHealthSmokingPrevalenceWHOMales%New**

To pull data from the Tobacco Free Initiative for uploading into IFs, please follow the instructions below.

## Steps to Pull Data From The Tobacco Free Initiative

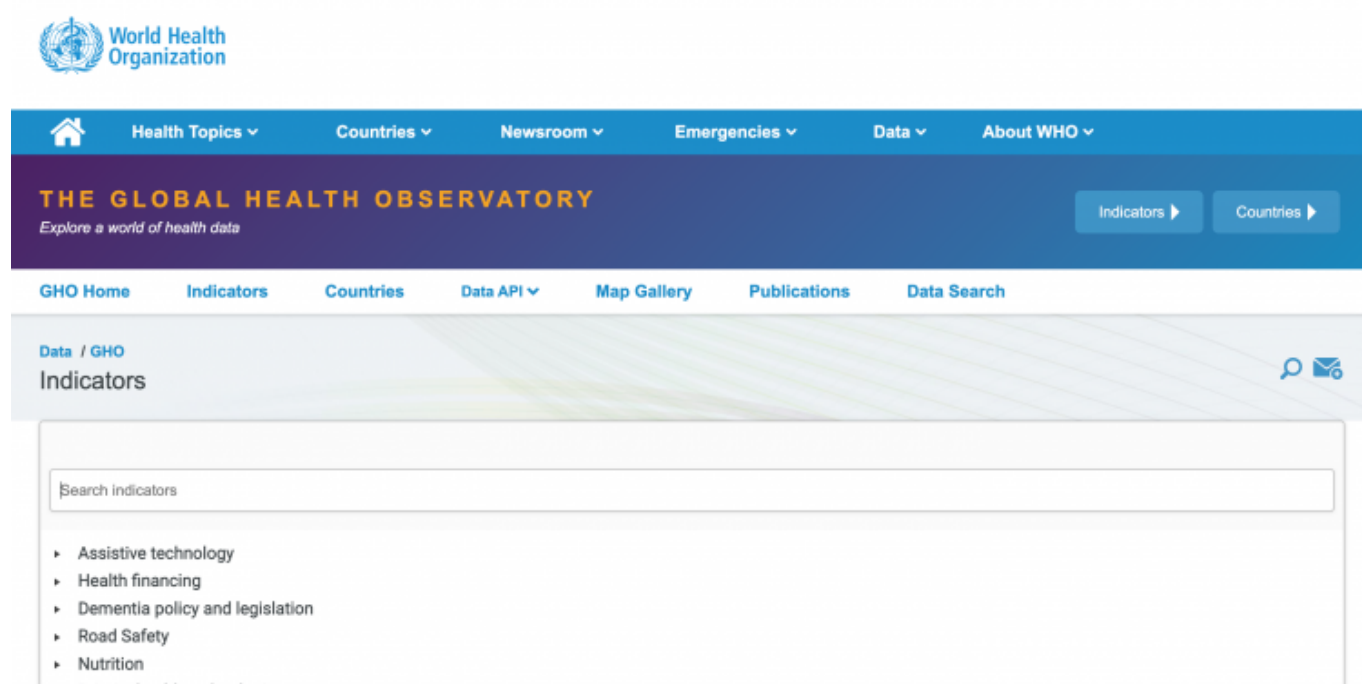

---

**Step 1:** Navigate to the GHO Data Home Page and click the indicator tab

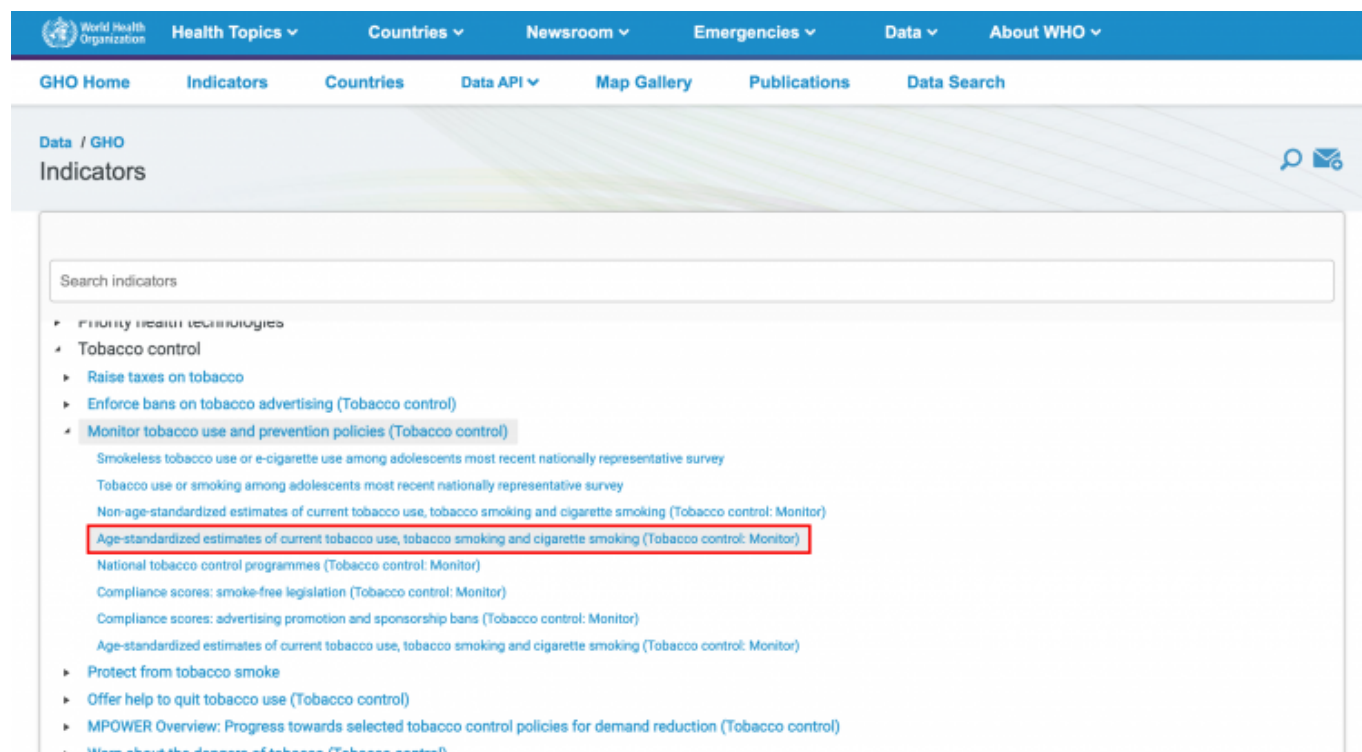

The screenshot shows the WHO Global Health Observatory (GHO) website. At the top left is the WHO logo. The navigation bar includes 'Health Topics', 'Countries', 'Newsroom', 'Emergencies', 'Data', and 'About WHO'. Below this, a secondary navigation bar has 'GHO Home', 'Indicators' (highlighted with a red box), 'Countries', 'Data API', 'Map Gallery', 'Publications', and 'Data Search'. The main content area features the text 'THE GLOBAL HEALTH OBSERVATORY' and 'Explore a world of health data', with buttons for 'Indicators' and 'Countries'. At the bottom, there are three image-based sections: 'Universal Health Coverage', 'Health Emergencies', and 'Health and Well-Being'.

**Step 2:** Using the dropdown list, click "Tobacco control" to access tobacco-related indicators.

The screenshot shows the WHO Global Health Observatory website. The top navigation bar includes "Health Topics", "Countries", "Newsroom", "Emergencies", "Data", and "About WHO". Below this is a dark blue banner with "THE GLOBAL HEALTH OBSERVATORY" and "Explore a world of health data". A secondary navigation bar contains "GHO Home", "Indicators", "Countries", "Data API", "Map Gallery", "Publications", and "Data Search". The main content area is titled "Data / GHO Indicators" and features a search bar labeled "Search indicators". Below the search bar is a list of categories: "Assistive technology", "Health financing", "Dementia policy and legislation", "Road Safety", "Nutrition", and "Tobacco control".

**Step 3:** Locate your desired indicator. As an example, we will be looking for **age-standardized estimates of current tobacco use**, shown below.

This screenshot shows the same WHO Global Health Observatory Indicators page, but with the "Tobacco control" category expanded. The search bar is empty. The expanded list includes: "Raise taxes on tobacco", "Enforce bans on tobacco advertising (Tobacco control)", "Monitor tobacco use and prevention policies (Tobacco control)", "Smokeless tobacco use or e-cigarette use among adolescents most recent nationally representative survey", "Tobacco use or smoking among adolescents most recent nationally representative survey", "Non-age-standardized estimates of current tobacco use, tobacco smoking and cigarette smoking (Tobacco control: Monitor)", "Age-standardized estimates of current tobacco use, tobacco smoking and cigarette smoking (Tobacco control: Monitor)", "National tobacco control programmes (Tobacco control: Monitor)", "Compliance scores: smoke-free legislation (Tobacco control: Monitor)", "Compliance scores: advertising promotion and sponsorship bans (Tobacco control: Monitor)", "Age-standardized estimates of current tobacco use, tobacco smoking and cigarette smoking (Tobacco control: Monitor)", "Protect from tobacco smoke", "Offer help to quit tobacco use (Tobacco control)", "MPOWER Overview: Progress towards selected tobacco control policies for demand reduction (Tobacco control)", and "Warn about the dangers of tobacco (Tobacco control)". The "Age-standardized estimates of current tobacco use, tobacco smoking and cigarette smoking (Tobacco control: Monitor)" item is highlighted with a red box.

When you see your desired indicator, click it. You will be navigated to this page:

Data / GHO / Indicators

### Age-standardized estimates of current tobacco use, tobacco smoking and cigarette smoking (Tobacco control: Monitor)

Appears in:  
 Current tobacco use, tobacco smoking and cigarette smoking | NCD risk factors: Tobacco use |  
 SDG Target 3.a | Tobacco control: Strengthen the implementation of the World Health Organization Framework Convention on Tobacco Control in all countries, as appropriate
