Version 7.88 (July 5th, 2022)

You can download IFs Version 7.88 at 7.88 VB6 version, 7.88 NET version, and 7.88 NET version (bilateral)

Interface Updates

Model Updates

- Fixed loading a constant bilateral parameter that starts in base year.
- Fix to rebase to 2019 using bilateral mode.
- Change AIDREC to AIDRECEIPT in Influence logic. Fixing issue where USA-Angola Aid%Aid went above 100%. Remove services from trade%trade.

Data Updates

- 1 Tables inserted & updated:
  - Updated MILEXPSTOCK series. The change here is to remove zero values so that the hole-filling works to prevent the error.
