You can download IFs Version 8.11 at 8.11.

Interface Updates

- Fix on importing Data Series with commas in Name in Source field (LandAgri, LandTotal).
- Fix on searching variables with “&” like LandUrban&Build.
- Fixed problem when importing Data Series in long format, years in rows down as countries. Problem was showing in the 2nd import.
- Resetting Flex Displays cache after running batch scenarios.
- Fix for Flex Displays when selecting Total, doing graph and coming back (Agriculture Exports).
- Update on Catching scenario Errors, improvement in messages.
- Fix for Map Viewer, both in forecast and historical mode, was not showing names because of Kiribati, also problems combining category changes and other format options.

Model Updates

- Fix to New Education logic for Secondary lower and upper.
- Fix for Education Budget switch (edbudon), when turning off the switch (on in the base case), it was producing an error, because it was skipping some logic.
- Update on Catching scenario Errors, improvement in messages.

Data Updates

- 14 Tables inserted & updated.
  - 5 new tables from IMF GFS on general govt expenditure, including transport, communications, ect.
  - 4 preprocessors updated from ITU's ICT subscription data.
  - 2 new infra spending data from OECD.
  - 3 new waste water mgmt data from UNSD.
