Version 8.55 (October 21st, 2025)

You can download IFs Version 8.55 at IFs 8.55.

Interface Updates

- Fixes to font size in axes for Stacked Bar, Lorenz Curve, Longitudinal, Histogram and SDG Graph.
- Default Meso Categories have been added to the screen to create new Variable Lists.
- Added new Human Development, General, formulas for Clustering Development to Flex Displays.

Model Updates

- Fix for Bilateral Trade, the adjusment to match monadic trade was producing Infinite numbers by dividing by small number (to the power -44), now we check that values are at least 0.001, and not enough to be > 0. This was producing jumps in DEPENDENCE and INFLUENCE.

- Fixed Bilateral Embassy Units, it was incorrectly dividing by 1,000,000,000 and it looked like 0s.
- Saving Tariff Rates for Total (avg of 6 sectors) in the first year, otherwise the forward linkages were messed up.

Data Updates
