

WHO Global Health Expenditure Database

The printable version is no longer supported and may have rendering errors. Please update your browser bookmarks and please use the default browser print function instead.

The data are available here: <http://apps.who.int/nha/database>

We pull three series from this site: HealthExpGov%Tot, HealthExpPriv%Tot, HealthExpTot%GDP

Notes

- WDI Revision states that indicators SH.XPD.TOTL.ZS Health expenditure, total (% of GDP) and SH.XPD.PRIV.ZS Health expenditure, private (% of GDP) have been deleted in April of 2018.
- To replace these we pulled Current health expenditure (CHE) as percentage of gross domestic product (GDP) (%) for HealthExpTot%GDP and Domestic private health expenditure (PVT-D) as percentage of current health expenditure (CHE) (%) for HealthExpPriv%Tot

Pulling Data

Go to: <https://www.who.int/data/gho/data/indicators>

1) Search your indicator. It is very case sensitive.

Data / GHO
Indicators

current health expenditure (CHE)

- Health financing
 - Health Financing
 - External health expenditure (EXT) as percentage of current health expenditure (CHE) (%)
 - Current health expenditure (CHE) as percentage of gross domestic product (GDP) (%)
 - Domestic private health expenditure (PVT-D) as percentage of current health expenditure (CHE)
 - Current health expenditure (CHE) per capita in US\$
 - Out-of-pocket expenditure as percentage of current health expenditure (CHE) (%)
 - Domestic general government health expenditure (GGHE-D) as percentage of current health
- World Health Statistics
 - Health Financing
 - External health expenditure (EXT) as percentage of current health expenditure (CHE) (%)
 - Current health expenditure (CHE) as percentage of gross domestic product (GDP) (%)
 - Domestic private health expenditure (PVT-D) as percentage of current health expenditure (CHE)
 - Current health expenditure (CHE) per capita in US\$
 - Out-of-pocket expenditure as percentage of current health expenditure (CHE) (%)
 - Domestic general government health expenditure (GGHE-D) as percentage of current health

2) The excel file you need will be in the tab Data

World Health Organization | Health Topics | Countries | Newsroom | Emergencies | Data | About WHO

GHO Home | Indicators | Countries | Data API | Map Gallery | Publications | Data Search

Data / GHO / Indicators
Current health expenditure (CHE) as percentage of gross domestic product (GDP) (%)
Appears in: Health Expenditure

Current health expenditure (CHE) as percentage of gross domestic product (GDP) (%)

Last updated: 2023-12-05
Indicator: Current health expenditure (CHE) as percentage of gross domestic product (GDP) (%)
Location: Afghanistan, Albania

Location	Current health expenditure (CHE) as percentage of gross domestic product (GDP) (%)							Current health expenditure (CHE) as percentage of gross domestic product (GDP) (%)								
	2021	2020	2019	2018	2017	2016	2015	2014	2013	2012	2011	2010	2009	2008	2007	2006
Afghanistan	31.83	15.53	14.83	14.21	13.63	11.82	10.11	9.53	8.81	7.90	8.54	8.57	9.82	10.26	9.90	10.6
Albania	3.97	7.00	6.86	6.47	6.08	6.71	6.86	6.41	6.30	6.16	6.18	6.14	6.63	6.61	6.09	6.83

EXPORT DATA in CSV format
Right-click here & Save link

3) On the right side there will be the link that states EXPORT DATA in CSV. Right click on that link and save the link. You will get the csv excel file doing this.

Note: The aggregation rule for these three series is set to "none" which creates issues when viewing historical data.
