Instructions on pulling data from the WEF

Global Gender Gap

The Global Gender Gap Index ranks 145 economies according to how well they are leveraging their female talent pool, based on economic, educational, health-based and political indicators. With a decade of data, this edition of the Global Gender Gap Report - first published in 2006 - shows that while the world has made progress overall, stubborn inequalities remain.

Data source : <http://reports.weforum.org/global-gender-gap-report-2015/rankings/>

This was a simple update of the index from 2013-2015 from a combination of pdf documents and Excel(2013) files.

Country concordance update, the series is continuously adding countries to its list.
