

World Map

The printable version is no longer supported and may have rendering errors. Please update your browser bookmarks and please use the default browser print function instead.

Use the *World Map* option to compare historical data for variables across countries. To open the *World Map* from the Main Menu, choose **Data Analysis**, then click **World Map**.

This option displays variable data in a given year as shades of color that correspond to different levels of that variable or list. On the left side of the map, there is a legend that shows the current variable being displayed and the shades with their corresponding levels of the variable.

An example of the Display Map page with HDI.

There are a number of options and features that adjust the map:

- **Continue:** Go back to the previous menu or to the Main Menu of IFs.
- **Refresh Map:** After making changes to the display option fields, click this to update those changes in the map.
- **Data Information:** Open information on the data source and the availability of the data in different years.
- **Define Categories:** Open a screen to adjust the cutoffs for the display categories.
- **Help:** Open the corresponding page in the Pardee Wiki with the current feature or display they are using.

Display option fields:

- **Data Table:** Choose the data table or category to get variables from.

- **Data Field:** Choose the variable to display.
 - **Dimension of Variable:** Choose the year to display. When displaying from the time series Data Table, this option is available.
 - **Display Type:** Select one of the two sub options:
 - **Equal Interval:** Set the display categories to have the same range (ex., 0 to 400 and 400 to 800).
 - **Equal Count:** Set the display categories to each hold the same count of countries.
 - **Number of Categories:** Change the number of display categories using this drop-down from 2 to 7.
 - **Color:** Choose the display color of the map from this dropdown: sandy brown, green, blue, red, or gray.
 - **Projection:** Change the type of map projection from the dropdown.
-
