Series read into state failure preprocessor

Table	Definition	Source	Notes	Last IFs Update
SeriesSFPITFConsolidatedEvProb	Consolidated event probabilty (with continuing events)	Computed from State Failure Project		
SeriesSFPITFConsolidatedMagAvg	Consolidated event, average magnitude	Computed from State Failure Project		
SeriesSFPITFConsolidatedY1Prob	Consolidated event probabilty (initial events)	Computed from State Failure Project		
SeriesSFPITFDomInstabilityEvProb	Domestic instability event probabilty (with continuing events)	Computed from State Failure Project		
SeriesSFPITFDomInstabilityMagAvg	Domestic instability event, average magnitude	Computed from State Failure Project		
SeriesSFPITFDomInstabilityY1Prob	Domestic instability event probabilty (initial events)	Computed from State Failure Project		
SeriesSFPITFInternalWarEvProb	Internal war event probabilty (with continuing events)	Computed from State Failure Project		
SeriesSFPITFInternalWarMagAvg	Internal war event probabilty, average magnitude	Computed from State Failure Project		
SeriesSFPITFInternalWarY1Prob	Internal war event probabilty (initial events)	Computed from State Failure Project		
SeriesSFPITFConsolidatedEv	Consolidated event occurrence (1 = yes, 0 = no)	State Failure Project	BBH new code to compute; copy manually back from Runfiles to Data after rebuild base	2011/12/16 BBH
SeriesSFPITFConsolidatedMag	Consolidated event, maximum magnitude	State Failure Project	BBH new code to compute; copy manually back from Runfiles to Data after rebuild base	2011/12/16 BBH
SeriesSFPITFInternalWarEv	Revolution, ethnic, genocide/politicide eventoccurrence (1 = yes, 0 = no)	State Failure Project	BBH new code to compute; copy manually back from Runfiles to Data after rebuild base	2011/12/16 BBH

SeriesDiploEmbassyStandCountry	Standarized Number of Embassies that a country has in other countries in a given year			2012/10/29
